Art.4 Permanent derogations

Permanent derogations, which are not subject to special authorisation, are granted for the following transport operations:

1. vehicles transporting, to the exclusion of all else, live animals or perishable goods or foodstuffs, provided that the quantity of goods occupies at least half of the loading surface or volume of the vehicle.

In the case of multiple deliveries, these minimum loading conditions no longer apply beyond the first point of delivery provided that further deliveries occur within a zone restricted to the region of origin of the first delivery point and the neighbouring departments or the region of origin.

Vehicles transporting racehorses are not subject to minimum load conditions.

The vehicles concerned are not subject to minimum load conditions and may travel empty if their movements consist of loading operations restricted to a zone consisting of the region of origin and its neighbouring departments or the region of origin.

Are considered perishable goods and products : eggs; live fish, crustaceans and shellfish; foodstuffs requiring refrigeration; frozen and deep-frozen foodstuffs, in particular meat products, seafood, milk and dairy products, egg-based products, yeast and vegetable products including refrigerated fruit juices and ready-to-use chopped raw vegetables; all foodstuffs which must be kept warm; fresh fruit and vegetables, including potatoes, onions and garlic; cut flowers, and potted plants and flowers; honey; animal carcasses; fermentable or hygroscopic products of starchy origin; drugs or health products whose preservation requires that they be refrigerated or maintained at a specific temperature.

2a. Vehicles engaged in the seasonal collection and transport of agricultural produce from the place of harvesting to the place of storage, processing, packaging or transformation, within an area made up of the region of origin and the neighbouring departments or the region of origin and adjacent regions.

2b. Vehicles engaged in the seasonal transport of beet pulp from the processing plant to the place of storage or use. These vehicles may not use the motorway network.

3a. Vehicles whose load is indispensable for the installation of economic, sporting, cultural, educational or political events which have been duly authorised, on condition that the said event is to take place at the latest 4 days before or after the transport.

3b. Vehicles transporting fireworks, the use of which has been duly authorised for the same day or the following day.

3c. Vehicles transporting hydrocarbon gas mixture, liquefied, NOS, UN1965, or petroleum products, UN 1202, 1203, 1223, necessary for duly authorised sporting competitions, on condition that the event justifying the transport operation is to be held on the same day as or, at the latest, the day after the transport operation.

4. Vehicles transporting newspapers and magazines, or transporting electoral material within the framework of the elections mentioned in the electoral code.

5. Vehicles carrying out office or factory removals.

6. Vehicles specially equipped for the itinerant sale of the goods transported, within an area made up of the region of origin and the neighbouring departments or the region of origin and adjacent regions.

7. Vehicles belonging to tradesmen and which are used for the sale of their produce at fairs or markets within an area made up of the region of origin and the neighbouring departments or of the region of origin and adjacent regions.

8. Vehicles used for the transport of air freight, under cover of an air waybill.

9. Vehicles used for the transport of hospital waste or goods necessary for the operation of medical establishments (including establishments for elderly people), and medical good or goods for sanitary protection.

10. Vehicles transporting industrial gamma radiography equipment.

11. Vehicles essential for unscheduled repair operations on public energy, drinking water, sanitation, heating and communication equipment.

12. Vehicles essential to operations to maintain the safety of transport infrastructures.

13. Tank vehicles used for the supply of fuels (liquid or gaseous):

- a. of service stations located along highways and roads with controlled access,
- b. of airports for aircraft,
- c. of sea and river ports for professional and passenger ships and fishing boats.

14. Vehicles used for the evacuation of waste from ships in ports, waste collection centers and slaughterhouses. This excludes vehicles ensuring the evacuation of mobile waste collection centres, specific skips and containers, voluntary drop-off points and the collection of bio-waste.

For all vehicles benefiting from a permanent derogation, empty return is authorised within a zone restricted to the region of the first or last delivery point and the neighbouring departments or the region of the first or last delivery point and adjacent regions. Vehicles which have been used to transport homing pigeons are authorised to travel empty throughout the road network. The vehicles mentioned under points 3, 6 and 7 may travel laden at the end of the event or the sale, within a zone restricted to the region of the place where the event or sale took place and its neighbouring departments.

Art.5 Short-term derogations

So-called short-term prefectural derogations may be granted for vehicles performing a transport operation considered as indispensable and urgent to respond to a crisis situation or to events of particular gravity, whatever their origin, likely to threaten human lives, compromise security or freedom movement of people and goods or harm the environment. This includes:

- 1. vehicles performing a transport operation to deal with the consequences (including financial) of any crisis situation mentioned above;
- 2. vehicles performing a transport operation to deal with risks linked with an accident or a disaster likely to threaten human lives, or could harm people, goods or the environment.

Specific short-term prefectural derogations may also be granted for the following vehicles:

- 1. Vehicles transporting goods to meet essential or urgent needs following an unforeseen event, such as a breakdown or blocking damage in a first to fourth category establishment open to the public, a professional vessel or a site of production;
- 2. Vehicles ensuring the supply of distribution centers threatened with a shortage due to an unforeseen event or a temporary context linked to an unforeseen situation;
- 3. Vehicles transporting goods necessary for the continuous operation of certain departments or production units. When they relate to the transport of dangerous goods, these exemptions are investigated;
- 4. Vehicles transporting goods which contribute to the execution of public services in order to meet immediate collective needs or which contribute to works or operations for which security and public order justify that these vehicles circulate for a period of traffic ban;
- 5. Vehicles which ensure the supply of clean laundry and the evacuation of dirty laundry from hotel structures with a capacity of at least 200 rooms per structure, including when the collection or delivery of laundry concerns several hotels located on the same site. reception unit, such as an amusement park or holiday centre;

6. Vehicles transporting compound food for animals on farms;
7. Vehicles transporting goods from or necessary for a manufacturing production unit operating on certain Saturdays, Sundays or public holidays, excluding the transport of dangerous goods, when the applicant justifies that the storage of these goods on the production site is not possible for technical reasons or economic viability. The derogation is limited to a maximum radius of 50 kilometers around the production site and must make it possible to solve the impossibility of storage described above;
8. Vehicles which ensure the pre- or post-routing of goods transported by river or rail, within a maximum radius of 150 kilometers from the intermodal river or rail terminal concerned.

For vehicles with an individual prefectural derogation on a temporary basis, empty driving is authorized without restriction during the period of validity of the order.

Art.6 Lifting of restrictions - border zones

In order to mitigate the consequences of the lack of harmonisation of traffic bans with those of neighbouring states, the Prefects of border departments have the possibility of granting derogations to the driving restrictions.

Art.8 Conditions of use of derogations

For any vehicle granted a permanent derogation or a short or long-term individual prefectural derogation, the person in charge of the vehicle must be able to prove to the officers responsible for road traffic checks that the transport operation complies with the provisions of the derogation concerned.

The authorisation must be kept on board the vehicle. For it to be valid, it must be completed by the holder prior to the vehicle's departure, indicating the date of the transport operation and the vehicle's registration number.

An authorisation may be withdrawn by the issuing authority if the holder does not observe its terms of use or has provided erroneous information in order to obtain it.

Additional information

The President of the IMT, I.P. may grant special circulation permits for vehicles:

- (* and **) That carry out loading or unloading during the periods provided in points, provided that the facilities where the loading or unloading takes place are served only by a road subject to driving bans and that the use of this road allows direct access to another route not subject to driving bans;
- Transporting of dangerous goods that are essential for the continuous operation of production units or for the satisfaction of exceptional needs for limited periods;
- When their displacement is indispensable and urgent, given reasons of public interest that it is important to safeguard.

For the purposes of the preceding paragraph, the IMT, IP, may request an opinion from the competent official entities on the indispensability and urgency of transport.

For the purpose of preparing the authorization request, the entity interested in receiving the dangerous goods or with facilities exclusively served by routes subject to restrictions, must submit a reasoned request, which states:

- a) The exceptional circumstances underlying the request;
- b) The supplier and the shipper of the goods;
- c) The place of loading and unloading of the goods;
- d) In the case provided in the first paragraph, first indent, the identification of the vehicles to be used and the indication of the days and hours foreseen for circulation;
- e) The identification of the goods to be transported, mentioning the UN identification number and the official transport name.

The IMT, IP, publishes on its website information on the terms and the way in which authorization requests must be formulated.

The model of the special circulation permit, as well as the documents that accompany it and which, if requested, must be presented to the road inspection authorities, are approved by deliberation of the board of directors of IMT, IP.

In case of emergency, the vehicle may circulate without the authorization granted by the IMT, IP, provided that:

- a) The authorization request has been entered at the IMT, IP, before the transport is carried out;
- b) The territorially competent security force at the place of commencement of the transport has declared, in writing, that it does not object to the transport being carried out.

Additional information

In accordance with Act 9, §140 of the 2009 Digest of Law, authorisation to drive during the hours of the driving restriction may be obtained in extraordinary and inevitable cases, if to do so would not endanger public safety. If the authorisation is required for the territory of one region, the relevant Regional Traffic Inspectorate is competent to deal with the request for exemption. If the authorisation is required for an area covering more than one region, the request for exemption should be addressed to the Department of Traffic Police of the Presidency of the Police Corps, (Odbor dopravnej polície Prezídia policajného zboru), Raciarska 45, 812 72 Bratislava, Tel.: +421 9610 50221. The issue of authorisations is subject to administrative fees. An authorisation is granted if the request is justified and on presentation of certified documents indicating the necessity of the transport operation. The authorisation remains valid for a period of 30 days.

- transport of quickly perishable goods by cargo vehicles – freezer lorries;
- transport of freshly harvested flowers;
- collection and removal of household waste;
- removal of animal corpses as part of the veterinary hygiene public service or animal waste products, as part of the public utility service;
- transport of mobile disinfection device for hospital use;
- transport of construction machinery or material for motorway construction or reconstruction in the Republic of Slovenia, which urgently needs to be carried out during a traffic ban, which must be substantiated by the driver with a written certificate issued by the Motorway Company in the Republic of Slovenia (hereinafter referred to as DARS);
- transport of equipment for theatrical shows or concerts, which, due to event programmes, must be carried out at the time of traffic bans.

Traffic limitations shall also not apply to tractor transport in the case of Points 4, 13, 14 and 17 of the previous paragraph.

Also allowed at the time of traffic bans is driving empty vehicles en route to loading or returning from unloading, which must be substantiated by the driver with appropriate documentation.

Also allowed at the time of traffic bans is transport of machinery required for carrying out urgent maintenance works, which must be substantiated by the driver with appropriate documentation.

Additional information

Points to note

Before the beginning of the restriction, drivers must immobilise their vehicles in suitable parking places at the roadside.

During the period of the restriction, foreign-registered vehicles of over 7.5t GVW or over 14m in length may not enter Slovenia, but should use the parking areas in the border zone.

In winter conditions, it is forbidden to drive combination vehicles, vehicles transporting dangerous goods, as well as exceptional loads. Even if these vehicles have the compulsory winter equipment, entry into Slovenia is not permitted while winter conditions prevail. This does not apply to vehicles registered in Slovenia if there is a suitable parking place at the border crossing allowing these vehicles to be removed from the traffic. It is the driver's responsibility to stop at the first suitable off-road parking area until the roads have been cleared.

In the case of high winds, trucks, combination vehicles, buses and coaches are prohibited on certain road sections. These restrictions are signposted.
